

Apprenticeship – Tech-GBS - India

Our Technology & Operations (T&O) team is the powerhouse for the Bank. We aim to go further, faster, to ensure we're agile and ready for tomorrow, today. Our diverse network enables us to innovate and build banking solutions that support communities to prosper. We're a place where talented people are encouraged to grow, learn, and thrive, to drive their own career journeys, to reach their full potential.

When you work with us, you're protecting the reputation and legacy of a 170-year organisation and building on it. We're driven by progress and continuously evolving to ensure we're agile and ready for tomorrow, today.

Together with a group of highly driven technologists, you'll get to collaborate and work on solutions that provide the best digital experiences and continually enhance existing offerings. Innovation is a big part of our execution agenda as we strive for excellence. If you're a curious technologist and tackling challenges excites you, then this programme will be the springboard you are looking for.
