OBJECTIVE

Computer Science (AI & ML) undergraduate with strong analytical and problem-solving skills, eager to learn new technologies and contribute to innovative software solutions. Passionate about artificial intelligence, bioinformatics, biotechnology, and open-source development, with a commitment to continuous learning and collaborative growth.

EDUCATION

10th Grade (ICSE) St Francis ICSE School — Hongasandra, Bengaluru Score: 92.6%	Apr 2018 – March 2019
12th / Pre-University Course (PUC) Christ Academy Junior College, Hullahalli, Bengaluru Score: 95.6%	May 2019 – June 2021
B.E. in Computer Science and Engineering (AIML) JSS Academy of Technical Education, Bengaluru CGPA: 8.31	Dec 2022 – May 2026

SKILLS

Languages:	Python, Java, C
Core CS:	Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks
AI/ML:	Machine Learning, Deep Learning, Computer Vision, NLP, Retrieval-Augmented Generation (RAG)
Libraries:	TensorFlow, Scikit-learn, NumPy, Pandas, LangChain, Transformers
Tools:	Git, GitHub, Linux, MySQL, VS Code, Jupyter Notebook

PROJECTS

Chat with Video

- Developed an AI-powered semantic search application that enables users to interact with video content using natural language queries.
- Extracted audio from videos, generated transcripts using speech recognition, and created embeddings for semantic retrieval using FAISS and Transformers.
- Technologies: Python, FAISS, Transformers, SpeechRecognition, NLP.

Student Behaviour Analysis

- Developed a real-time student behaviour monitoring system using YOLOv5 and DeepSORT for object detection and multi-object tracking.
- Generated behavioural insights and anomaly detection reports through computer vision techniques.
- Technologies: Python, YOLOv5, DeepSORT, OpenCV.

Smart Traffic Management System

- Built a real-time traffic monitoring system using YOLOv3 and OpenCV to detect and count vehicles.
- Implemented adaptive traffic signal timing based on vehicle density to reduce congestion.
- Technologies: Python, YOLOv3, OpenCV, TensorFlow.

EXTRA-CURRICULAR ACTIVITIES

- Participate in cricket, badminton, and football, developing teamwork and leadership skills.
- Contribute to open-source projects through GitHub.
- Interested in Artificial Intelligence, Bioinformatics, and Biotechnology.
- Continuously learn emerging technologies through hands-on projects and technical resources.
